## BLOODY KNIFE A STRONG CLEW.

BLADE USED IN DOUBLE MURDER  
NOW IN SHERIFF'S HANDS.

Calaveras County Officials Believe  
They Will Soon Have Slaying of  
Mrs. Williams and Chester Maker  
in Jail—Mrs. Rogers Gets Reprieve  
Until December.

(BY DIRECT WIRE TO THE TIMES.)  
STOCKTON, June 22.—[Exclusive  
Dispatch.] After working about a  
week on the double-murder mystery at  
Lanaha, Calaveras county, the  
authorities believe that they have at  
last secured such a strong clew that  
in a few hours they will land the murder-  
er in jail.

A knife, which is supposed to belong  
to a man named Sheldon, was picked  
up today near the scene of the murder  
of Mrs. George Williams and Chester  
Maker. The handle was bloodstained  
and it was just such a weapon as had  
been used to cut Mrs. Williams's  
throat and mutilate Chester Maker.

It was Sheldon who directed sheriff  
T. E. Norman to the spot where the  
youth's body was found, but not the  
slightest suspicion rested on him until  
the finding of the knife. It was found  
by William Craft, a boy, who happened  
to be passing near the Williams home.  
After he picked up the weapon it was  
hours before the sheriff's office was  
notified, as it seemed the boy turned it  
over to some friends, who put it in a  
day bag and the case instead of  
notifying the officers.

## FEUD ENDS IN MURDER. LYNCHING MAY FOLLOW.

(BY THE ASSOCIATED PRESS—P.M.)

MISSEOLA (Mont.) June 22.—William  
Burris, a rancher on Rattlesnake  
River, twelve miles from this city, is  
dead as the result of the culmination  
of a feud of three years' standing be-  
tween William Burris, a notoriously  
known as "Coyote Bill," and his neighbor.

Beckwith turned loose today with a  
rifle as Burris was hauling wood from  
land claimed by Beckwith. Two shots  
looked effect. Within twenty minutes  
Burris was dead, and his slayer started  
for this city to surrender to the sheriff.

Feeling against Beckwith runs high  
on the Rattlesnake tonight, and in or-  
der to prevent the prisoner being  
lynched, an extra guard has been  
placed around the County Jail. Trou-  
ble is looked for before morning.

The dead man was the father of three  
children, who, with their mother, are  
left penniless.

## REPRIEVE FOR MRS. ROGERS.

WONT HANG UNTIL DECEMBER.

(BY THE ASSOCIATED PRESS—A.M.)

WHITE RIVER JUNCTION (Vt.) June 22.—Late today, Gov. Bell signed  
a reprieve for Mrs. Mary H. Rogers,  
the Denington murderess, until De-  
cember 8, 1935.

HABEAS CORPUS DENIED.  
(BY THE ASSOCIATED PRESS—A.M.)

BRATTLEBORO (Vt.) June 22.—The  
habeas corpus petition of Mary Rogers,  
under sentence of death for the murder  
of her husband, was denied today by  
Judge Wheeler, sitting as a justice of  
the United States Circuit Court today.

Mrs. Rogers's attorneys formally filed  
an appeal to the Supreme Court of the  
United States. Judge Wheeler an-  
nounced his readiness to grant it, but  
said he would not sign the necessary  
papers until 4 o'clock this afternoon,  
in order that the Governor might have  
an opportunity again to reprieve Mrs.  
Rogers.

At the same time, the judge declared  
that if the Governor did not grant a  
further reprieve the court would issue  
an order remanding Mrs. Rogers to the  
custody of the United States Marshal,  
pending a decision of appeal.

State's Attorney Gen. Flitts left  
here this afternoon to meet Gov. Bell.  
He carried a reprieve form, which was  
filed out to read that Mrs. Rogers  
would be reprieved until December, 1935.

Today's reprieve was granted in or-  
der that the case may be carried to  
the Supreme Court of the United  
States on constitutional questions,  
which were raised at a hearing before  
Judge Hoyt H. Wheeler, sitting as a  
justice of the United States Circuit  
Court.

CAME FROM SACRAMENTO.  
MOTHER OF MURDERED CHILD.  
(BY DIRECT WIRE TO THE TIMES.)

BOSTON, June 22.—[Exclusive Dis-  
patch.] It develops that May Ward  
Young, who is involved in the mysteri-  
ous tangle growing out of the murder  
of little Minnie Young, near Digby,  
N. B., came from Sacramento and  
claims to have relatives there.

May Ward Young declares that E.  
Elmer Young, a well-known Boston  
detective and tracer of lost heirs, lost  
children, etc., was the father of Min-  
nie Young, the murdered child, and  
that she was his mother. Young duped  
her into a mock marriage about seven  
years ago, when she was 17, and they  
lived together in Boston five years,  
when he deserted her, taking the child.  
He then lived with Mary Hope, a No-  
va Scotia girl, as his wife, in another  
part of Boston. His child by this  
woman, a little girl, was found dying  
beside Minnie Young in Digby woods.  
While living with Mary Hope Young,  
May Ward's child was beaten and  
starved until neighbors interfered. The  
Youngs posed two years as her guar-  
dian.

A third wife turned up today in the  
person of Agnes Maxwell, who says  
she married Young in Boston in 1891,  
having two children by him.

BAD MAN WITH KNIFE.  
VICTIM'S HAND MOST SEVERED.

With blood in his eye and murder in  
his heart, Felipe Malachi, Mexican,  
entered the Hoffman House on North  
Main street last night and ran amuck  
with a keen-edged knife.

Felipe, a lodger, crossed  
Malachi's path in the hallway and re-  
ceived a cut across the right wrist,  
which nearly severed his hand. Crazed  
by the sight of blood, Malachi wildly  
through the house cutting and slash-  
ing at everyone until he was finally  
overpowered by the husband of the  
landlady, who nearly brained the drink-  
crazed man with a chair.

Mata visited the house early in the  
evening and appeared to the landlady's  
room, where he immediately raised a  
disturbance. He was thrown out in  
the hallway, where he encountered  
and viciously stabbed Orlin. The  
latter was hurried to the Receiving  
Hospital, where prompt action by the  
surgeons saved him from bleeding to  
death.

Mata was arrested and a charge of  
attempt to murder was entered against  
him.

Twice Steals Same Horse.

MARTINSVILLE, June 22.—Sheriff Voss  
today brought David Jackson from  
Oroville where he was arrested for  
horse stealing. Jackson stole a \$400  
horse here Sunday and rode to the

Casey farm and stole a saddle and brid-  
le, and then rode to Oroville, where  
he traded the horse for another and a  
small amount of cash. After spending  
the money, he stole the Marysville  
horse again and hid it in a cabin.  
When arrested, he admitted his guilt.

## Warrant Issued for Cashier.

BUFFALO (N. Y.) June 22.—A Fed-  
eral warrant has been issued for the  
arrest of Fred Green, cashier of the  
closed Fredonia National Bank of Fre-  
donia. Green is charged with being sev-  
eral thousand dollars short in his ac-  
counts.

## Arrested, He Swallows Poison.

SAN FRANCISCO, June 22.—J. V.  
Read, a dry goods salesman of Sacra-  
mento, was arrested this afternoon by  
Detective Wren at the request of the  
Sacramento police, and soon after he  
had been taken to the city prison he  
swallowed about fifty grains of antro-  
phine with suicidal intent. The pris-  
oner was hurried to the Harbor Hospi-  
tal, and the surgeons are now mak-  
ing every effort to save his life. Read  
is accused by his wife of embezzling  
levels raised at about \$1000 from her  
and leaving his home.

## HOLLYWOOD.

STUDENTS ENTERTAIN.

HOLLYWOOD, June 22.—An enter-  
tainment in two parts was given to-  
night in the High School assembly  
room. The first consisted of a selec-  
tion by the orchestra, a vocal solo  
by Miss Jessie Morgan, selections by  
the High School chorus, a humorous  
description of a debating society by  
Earl Gilmore, and the Japanese na-  
tional anthem by the Japanese stu-  
dents. Part two was a farce entitled,  
"A Case of Suspicion." In it most  
those appearing were: Mamie Doug-  
las, Myrtle Kay, Louise Blondeville,  
Jack Hampton, Clarence Brewer,  
Wayne Jackson, Montgomery Douglas,  
Persis Young, Paul Hardy and Una  
Karg.

## DEATH OF H. J. GORMAN.

Henry J. Gorman, for seven years  
proprietor of the Calhoun Place Hot-  
tel, died today at noon, after an ill-  
ness of several months. The funeral  
will be held at the Church of the  
Blessed Sacrament, Saturday morn-  
ing, when requiem high mass will be  
celebrated by Rev. Murphy. The in-  
terment will be at Calvary Cemetery,  
Los Angeles.

The Forty Hours' Devotion will open  
at the Church of the Blessed Sacra-  
ment, Sunday morning. It will be the  
fifth anniversary of the ordination of  
Rev. Murphy, by Cardinal Gibbon.

## SUIT TRANSFERRED.

The case of George W. Evans vs.  
the Laguna Lands, Ltd., a corpora-  
tion, was transferred yesterday from  
the Superior Court of Kings county to  
the United States Circuit Court in this  
city. Evans bought some farm lands  
from the Laguna company in 1903, pay-  
ing for them \$52, a part of which was  
cash down. It was understood that  
water rights went with the property,  
alleges the plaintiff, who further states  
that he planted several crops, water  
was denied and the crops ruined—  
hence the suit for recovery.

## FIFE AND DRUM.

Roosevelt Command, No. 5, United  
Spanish War Veterans, expects soon  
to have a Drum, Fife and Bugle Corps  
to be proud of. The first meeting was  
held last night and was in charge of  
Sgt. Maj. G. A. Horn.

Calling an article "unfair" never  
made it unfair, and when the "Rain-  
ier Beer" men walked out and de-  
clared a boycott they placed themselves  
on the "unfair" list by refusing to ar-  
bitrate.—[Adv.]

## EDITORIAL LABOR.

An Indiana Journalist is Paid a Salary  
for Copying from Alma-  
nacs.

[Cincinnati Enquirer.] A curious con-  
dition of affairs prevails on an Indiana  
newspaper at this time, wherein an  
editor is copying the contents of an old  
almanac for lack of other editorial  
duties, while he is drawing \$25 per week  
for his services in this line of "editing."

About eleven months ago, A. E.  
Blunck of Johnston, N. Y., bought the  
Lafayette Call, and ran the same with-  
out achieving either glory or profit, un-  
til two weeks ago, when he grew weary  
of doing business for naught, and sold  
out to another newspaper in that town.

On the pay roll of Mr. Blunck was a  
Mr. Armstrong, who received \$25 per  
week for doing the heavy editorial, and  
he was fortified with a contract for one  
year at that salary.

When the Call was disposed of Mr.  
Blunck gave Mr. Armstrong \$20 in ad-  
dition to his salary due and turned him  
out to grass. Editor Armstrong was not  
inclined to be dismissed thus lightly  
and pulled the contract on his employer.  
"This contract calls for \$25 per unit,"  
in June," said Mr. Armstrong, "and I  
shall expect you to pay me the salary  
till the year is up."

Blunck was not fazed by this de-  
mand, but responded that he would  
carry out the agreement. "But," said  
he, "you must report for duty at a  
certain place, do the editorial work  
that I assign to you, earning the money  
just as though the Call were running."

Armstrong assented, and Blunck pro-  
duced a stack of almanacs and other  
literature which he laid before the  
astonished Armstrong, with injunctions  
to write out in good, legible, long-hand  
what he found there. Armstrong has  
been regularly transcribing the stuff  
and drawing his money, and will con-  
tinue to do so until the contract ex-  
pires.

He is quite as happy and enthusiastic  
as though his matter were faithfully  
printed each day instead of being  
"turned in" to the galling waste basket.  
While the thrifty Mr. Blunck is content  
in the contemplation of his employee  
busily earning the weekly stipend.

THE UPLAND MEADOW.  
With canter, gallop and head toss we  
plunge through the sun-bathed air,  
The clouds are dancing before us, the  
wind at play in our hair.

Then on, and up to the corner, and  
back to the fence again!  
With canter, gallop and head toss, in  
proof that the day is ours,  
We kick up the dust behind us, we stop  
and pick at the flowers.

We look far down to the valley and  
sigh for folk who must work—  
Then on—a race to the corner and  
back, with the stop a jerk!  
Or, limbs grown tired in the gallop, we  
browse where the clover grows;  
We sweep ourselves in its sweetness, in  
beauty take our repose.

The crack of whip and the sharp com-  
mand—bride, check and rein  
Are far away. We are masters now.  
Ah, what is life to gain!  
They can't know life who just labor,  
ne'er shaking the traces free,  
Nor reaching upland meadows, with  
broader vision to see.

How cramped the shadowy valley  
where the roads are narrow, while  
here  
There's all the pasture to run in,  
where sun and the stars are near.  
Then on, and up to the corner, and  
back to the fence again!  
The clouds are dancing before us, the  
shadows are in the plain.

With canter, gallop and head toss we  
plunge through the sun-bathed air,  
The scent of grass in the nostrils, be-  
hind us a kick for care!  
—The Outlook.

## FRENCH CELEBRATION.

The Alliance Francaise has decided  
to hold its celebration of July 14 at  
the Chutes. Efforts will be made to  
have the largest affair in the history of  
the society, both in point of pro-  
gramme, arrangements and attendance.  
The entire park will be given over to the  
merrymakers, and the diversion will  
last throughout the day. A committee  
appointed yesterday to complete the  
plans, consists of A. Fuenot, Amaury  
Mare, Ferdinand-Parmantieri and Al-  
bert Rougny.

## BAND BAND IS BANNED.

Park Commissioner Lamb put a  
quietus yesterday on the band of al-  
leged musicians that has been blow-  
ing inharmonious holes into the air  
circumambient to Westlake Park. The  
discordant tooters were ordered by the  
commissioner to keep out of the band  
stand and off the grass.

## GIRL'S SILVER MEDAL.

Little Helen Hughey won an orator-  
ical prize yesterday at the six o'clock  
girls in the Boyle Heights Methodist  
Church last night. The contest was  
for a silver medal, given by the Boyle  
Heights branch of the W.C.T.U.

Strikes are declared that differences  
may be arbitrated. By declaring a  
boycott and refusing arbitration the  
"Rainier" strikers lost sight of the  
real mission of strikes, and placed  
themselves on the "unfair" list.—[Adv.]

DON'T miss Tabini celebration. The S.S.  
Mariposa, sailing July 1, will carry a happy  
trip to the Golden Gate. Everyone who can  
spare the time should not miss this grand op-  
portunity to see for themselves the native  
scenery as full of wonder and interest.  
A few more berths available. Send for circular.

Solution men in Douglas are leading a movement toward annexation of the totally-perfected incorporation of the town. They object to the high license tax.

At Morenci, the Detroit Copper Company is having experiments made with the water pumped from its mines, to test its value as a disinfectant around the dump. The water carries high percentage of sulphur and copper in solution.

Mormon residents of Thatcher are preparing for the construction of a long trestle by which lumber will be floated from the top of Graham mountain into the valley, at a point whence it can be hauled to the railroad.

The El Paso and Southwestern railroads have commenced blowing up the slag dump of the Calumet and Arizona smelter, near Douglas, and will use the material as ballast. One blast in the dump was of 400 kegs of black powder.

**Insuring Against Twins.**

An English gentleman of limited means had married recently into a very prolific family. There was prospect of an addition to his household. "Twins," reflected the gentleman, "are much more expensive to support than one child." And he sent him broker to one of Lloyd's underwriters. The underwriter set an actuary to look over the vital statistics and make a few calculations. Then for the sum, I think, of £8 guineas he insured the gentleman in £1900 against the advent of twins.

The point of the story is, that the lady presented her impetuous husband with one fine son. The underwriter immediately commencing business at his time and his actuary's, set down a net profit of £25.50, for which he had advanced nothing—but the risk—[Lancashire Weekly.]

Absibility in drawing and architecture. He was the winner last year over other contestants of a prize of \$25. offered by the Board of City Trustees here for a sketch of designs for improving the city. His plans have since been followed to the letter by our city fathers. I think, of 25 guineas he insured the man his time and his actuary's, set down a net profit of £25.50, for which he had advanced nothing—but the risk—[Lancashire Weekly.]

**"The Rivals."**  
The senior class of the State Normal School will present "The Rivals" for the benefit of the students' loan fund, on next Tuesday evening.

**Judge Munroe Gives Dinner.**  
Judge Charles Munroe last night entertained the other judges of the Superior Court at an informal dinner, given at the Van Nuys Hotel. Plates were laid for nine guests.

**Not He.**  
Comes C. M. Stevens, auctioneer. Tajo building, hastily to explain that he is not the Stevens who plays the role of auctioneer-caller on the Los Angeles Miners' Stock Exchange, and that he does not deal in "wash goods."

**Ribs Broken.**  
E. J. Ridgway, who lives on Boyle Heights, was taken to the Police Station with two broken ribs yesterday, but it is a lucky chance that he is not in the morgue. He was riding by the side of a street car on a wheel, when it slipped on the wet street, and threw him against the car.

**Unusual Mark of Respect.**  
The business men of Pico Heights will today pay an unusual mark of respect to the memory of the wife of a brother merchant. The funeral of Mrs. H. E. Howard, daughter of West Pico street, who died yesterday, will be held this afternoon at the Congregational Church. As an evidence of the regard in which she was held by the residents of the heights all places of business will be closed today between the hours of 2 and 4 o'clock p.m.

**State's May Health.**  
According to statistics gathered by the California State Board of Health for May, twenty-four reports, representing a population of 920,250, show a mortality of 1187, and a death rate for the month of 1.23 per thousand, or an annual rate of 15.31 per thousand. Among the causes of death were: Tuberculosis, 126; heart disease, 126; pneumonia, 91; cancer, 83; stomach, 63; diarrhoea and dysentery, 26; typhoid fever, 20; bronchitis, 15; diphtheria, 13; cerebro-spinal fever, 11; alcoholism, 8.

**"Strongarm" Bury.**  
Ah Quong, an inoffensive laundryman, slighted from a car at Avenue 66 Wednesday night, and started for his home, a short distance away, when he was set upon by a stranger, who had also stepped from the car. Quong went down and out under several heavy blows, and lost \$4 to the highwayman. C. A. Wise of No. 818 Taylor street, reported to the police that two negroes stopped him at First and Alameda streets Wednesday night and demanded money. He refused and ran. The negroes pelted him with stones as he fled to safety.

**Ticklish Time Over Ticker.**  
The sum of 35 cents, which was alleged to have been due for repairs to a guaranteed watch was repaid yesterday for a rough-house in Isaac Cohen's Broadway jewelry shop yesterday, in which Cohen and W. R. Brown, a teamster, fought to a standstill. Brown purchased a watch from Cohen several days ago, which he claims the jeweler fully guaranteed. When he returned it for repairs, Cohen demanded 35 cents, but Brown refused to settle. A pitched battle ensued from which neither escaped unscathed. Cohen swore to a warrant charging battery and Brown's arrest followed. He was released on bail.

**Bank Clerks' Smoker.**  
The Los Angeles Chapter of the American Institute of Bank Clerks gave a smoker last night in Chickerling hall, on South Broadway. Seventy bank clerks participated. A programme was given, consisting of solos by W. W. Gibbs, Jr., D. W. Carlton and J. J. Stinson; there was an exciting check-adding contest on machines furnished by the Burroughs Adding Machine Company, and this concern furnished prizes for the winners. A money-counting contest, furnished much amusement, and this was followed by a check-listing contest, for which prizes were awarded. At the close of the programme refreshments were served.

**Reception to Dr. Chapman.**  
The Church Federation of the city is making special preparation for the reception to be given to Dr. Ervin S. Chapman in the First Methodist Church tonight. The church will be decorated effectively with flags and flowers in honor of the event. The programme will include addresses by Will A. Harris, Dr. W. F. Day, John E. Works, Mrs. Lucy Blanchard, J. Wallace and Dr. Chapman. Little Annie Row will sing by special request, and the Y.M.C.A. quartette and the First Presbyterian Orchestra will participate. Dr. Chapman yesterday attended the Santa Barbara County Anti-Raid League, and last night addressed the State Convention of Christian Endeavor, Santa Barbara.

**Passing of Mrs. Burnett.**  
Mrs. James G. Burnett, formerly of New York, but for some months past, a resident of Los Angeles, died suddenly on Wednesday from the effects of a stroke of apoplexy, sustained about ten days ago. She had been an annual visitor to Southern California for a number of years, and had many friends in this State, who will deeply regret her death. For some time she had been in poor health, but her condition was not thought serious. She leaves a son, Charles H. Burnett, who has recently been appointed trainmaster on the Southern Pacific. Funeral services will be held at her late residence, No. 671 Coronado street, at 2 o'clock this afternoon. The body is to be cremated, and the ashes sent East for burial in the family plot in Greenwood. Bishop Johnson will officiate.

**Model Coffee House.**  
The Los Angeles Coffee House Association, composed of members of the City Union of Christian Endeavor Societies, has in operation at Santa Barbara this week a "model coffee house," as an object lesson for those in attendance at the State Christian Endeavor Convention. It is hoped the idea, which has proven so popular in this city, will be taken up by other cities' Endeavor societies. If the week's run at Santa Barbara seems to justify it, this coffee house may be continued permanently. O. D. Conroy, manager of the Los Angeles coffee houses, and three of his well-trained assistants, Barnett Shadley, the chef; Will Gardner and Albert Ward, have gone to take charge of the "model" establishment. It is said that the Los Angeles concerns are proving so satisfactory that the system is to be extended, and that it is probable one will soon be opened in the basement of the American Trust building, on South Broadway.

BREVITIES.

The volume of "Liners" in the Sunday Times has become so great that it is found necessary to ask patrons to get their Sunday advertisements in earlier; especially Sunday real estate advertisements, which in order to be printed must be in the office not later than 10 o'clock Saturday night. The printing of all real estate matter, including advertisements, is in part by itself on Sundays involves somewhat slower press work, making it essential, in order to get the paper out on time, to stop receiving real estate ads at 10 o'clock Saturday night. Dealers will confer a favor on the Times office if they will turn in Sunday copy on Friday, when possible; or at least a part of it, and the balance early on Saturday. Sunday "Want" ads will still be received by phone and over the counter until 11 o'clock Saturday night.

The ladies' rest room on the top floor of the new wing of the Times Building is open daily from 9 to 5. Ladies from town or country will find this a convenient place to write, rest or read. Stationery provided for correspondence. Classes and private lessons in art history. Miss Miller, 720 Beacon street. Home 2870. Main 2429.

## GRANGE'S FIST IN LOAN ROW?

Attorney Carter's View of Wadleigh's Trouble.  
Secretary Raised Roar With Plans for Economy.

Provident and Fidelity Inquiry is Begun.

What was the real reason for the sudden and vigorous dismissal of G. H. Wadleigh last Monday from the management of the Provident Building and Loan Association?

Various persons connected with the tragedy frankly explained yesterday how the event really befell.

Their explanations differed. It is possible that several more "real explanations" are now on the way by freight. They probably will be still different.

Meanwhile, local banking men are firm in the belief that the unhorning of Wadleigh was due to an invasion of local finance by Clarence Grange of San Francisco, that Wadleigh is victim of a big financial coup—a brilliant evolution in frenzied finance.

D. W. Field and James L. Fields, the State Building and Loan Commission, arrived on the scene of war yesterday and took charge of the office and the books.

Their triumphant entry developed humorous phases. Wadleigh's own idea of the "real reason" seems to be that he is accused of dishonesty; "I was he, it seems, that demanded the investigation."

If he had not been dishonest, why were these charges filed, and why the Pinkerton detective in the office? queries Wadleigh.

So, with a smile of unassuming martyrdom, the commissioner went into session yesterday to pry out the dishonesty of Wadleigh.

"We do not anticipate finding any shortages," said Mr. Field with a grin. "We are making a thorough examination, but I guess we can say we are not likely to find any crookedness."

Meanwhile, Mr. Wadleigh went into session on a wooden chair outside the office partition, inside of which he was, until Monday, supreme.

The Pinkerton detective and W. C. Crook, the new manager, surveyed him, peering over the edge of the counter, with signs of growing nervousness.

"INHARMONY," SAYS CROOK.  
Mr. Crook's idea of the "real reason" was that "inharmony" existed between Wadleigh and the board of directors.

He at first said that he hadn't anything to say; after which he said it.

"You know, of course, that often friction exists between the directors and the manager; well, so in this case. It was for the interests of the company, wasn't it, that the friction should be removed?"

Mr. Wadleigh denied, however, that he was a friction. He said there wasn't any friction, he said must exist, honesty. He said he couldn't make out what means the amazing language of the charges preferred by the directors, unless it is this.

Mr. Crook said, however, that there was no suspicion of dishonesty on the part of Mr. Wadleigh.

"There must be," insisted Wadleigh. "Else why wouldn't they let me take the books?"

Attorney G. B. Carter, who was "let out" of the company's service in favor of Senator Hahn of Pasadena, also has a real reason—a hot blast from Carter.

"It is partly," he said yesterday, "that the directors wanted more money out of it; partly because they had it in for Wadleigh for personal reasons that I will explain; I think, also, that Clarence Grange of San Francisco has a hand in this."

After which general broadside, he took it in detail.

Mr. Wadleigh built up this company and had practical control of it. He put in these very directors who have "fired" him out of office.

RUMORS OF TREASON.  
"We heard rumors of treason on their part about the time of the election last November. Mr. Wadleigh held proxies of a great majority of the stock. He elected these directors. About two weeks thereafter, rumors became persistent that they intended treason against Mr. Wadleigh."

"So we called a special meeting of the directors and put it to them straight; asked them their intentions. They fell over each other to protest their loyalty to Mr. Wadleigh."

"For one thing, Mr. Wadleigh wished to get his son into the employ of the company, but Mr. Wadleigh wouldn't have it."

"There also was trouble because Mr. Wadleigh wanted to cut down the pay of the directors; a great roar resulted. Mr. Wadleigh wanted to cut down the number of meetings, and also to give certain work to committees to the end of economy on the per diem bills; great roar."

GRANGE TAKES A HAND?  
"Then Grange took a hand. He is the building and loan man of San Francisco who engineered the bribery scandal against the State Senators."

"Grange had been nosing around here for some little time. One of the directors said that Grange told him Wadleigh offered to 'sell out' this company in a questionable way to him; that was the real basis of these charges against Wadleigh."

It may be mentioned, parenthetically, into Mr. Carter's remarks that the new manager—Mr. Crook—entirely absolutely that Grange has anything to do with the company or with this scandal.

Meanwhile, Attorney Carter: "Grange's hand is shown very plainly in this matter."

During this building war, Senator Hahn, at first opposed to Grange, experienced a change of heart, while the Legislature was in session, and came over to his side; became his attorney.

"When Wadleigh and I were put out, last Monday, who was appointed attorney in my place? Why, Senator Hahn, to be sure."

"Instead of a local man being put in to manage it, Mr. Wadleigh's place is taken by a San Francisco man, said to be Grange's representative."

Other building and loan men of this city, connected with other companies, it may be mentioned, share the belief that Grange is mixed up somewhere in this affair.

WHAT'S TO BE DONE?  
"Of course, we are not saying what is to be done," said Mr. Carter. "I suppose, however, that his attorney still holds the majority of the stock by proxy. I suppose he could vote the present board of directors out of office, however, there will be no meeting of the stockholders until November."

Meantime, all connected with the scandal state that a little later there may be developments. Mr. Field stated that the committee will be ready to report about Saturday.

Mr. Grange was in this city until yesterday, when he took the train back to San Francisco.

Many bankers throughout the city yesterday stated the loan company's finances are sound, and that Wadleigh himself is absolutely financially "straight."

The fact is, Wadleigh has only one person clamoring suspiciously against him—Wadleigh himself. He says that as long as these resolutions have been passed his conduct ought to be looked into.

MERCY DEATH ANGEL CALLS.  
HOPELESS SUFFERING OF MRS. CHASE IS ENDED.

Beautiful and Talented Woman, Popular in Society and Beloved for Her Charitable Works, Laid Low. Wife of Hotel Man, With Friends All Over the State.

In the early morning hours yesterday, death mercifully claimed a life which for years had been full of the brighter bloom of happy matrimony, but which, alas, for the past four years had been one of anguish and

sorrow for those who held the suffering most dear. Mrs. Carrie Weatherbee Chase, wife of Horace W. Chase, is now at rest.

Peculiarly sad and distressing was the end of this talented and beautiful woman. For four years she had been a mental wreck, and although everything that could possibly be done by a devoted husband and loving friends was tried for her relief, the malady gradually increased in its severity until the end came.

Carrie Weatherbee was born in Springfield, Me., March 26, 1862. Her early childhood was spent in that city, and she graduated from the Bangor (Me.) High School with high honors in 1881. She was married to Horace W. Chase at Hudson, Wis., July 3, 1888.

Immediately after the wedding they came to Los Angeles, where they have been prominent and have had a constantly increasing circle of friends. Mr. Chase is widely known in California as a retired capitalist and hotel man. He is the owner of the Hotel Nadeau, and for several years conducted that hotel, also making it his home. In this connection, both Mr. and Mrs. Chase formed a very wide acquaintance and close personal friendships with many prominent people all over the State.

During all this illness she was constantly at the bedside of her wife. For a time she was placed in the noted Livermore Sanatorium, and there was treated by the finest specialists obtainable, but they declared her case hopeless, and advised that she be returned to her home.

During all this illness she was uniformly in cheerful spirits and although she forgot all others she ever remembered her husband and daily called him by name in endearing terms.

Mrs. Chase was a member of the Daughters of Isis, Los Angeles Chapter, No. 10, Order of the Eastern Star, and one of the charter members of the Pine Tree State Association, organized twelve years ago through the efforts of a beautiful woman, Mrs. Lot- tie W. Warnes of Anoka, Minn., who will come to Los Angeles for the funeral.

In accordance with the request of Mrs. Chase, she will lie on a couch in her own room for a week, dressed as she was in the happiest days of her life, and this her friends will see her for the last time. The funeral services will be conducted by the Eastern Star. The time cannot be determined until the arrival of Mrs. Warnes.

PAIN YANK ON BAD DENTISTS.  
State Board After Licenses of Lawbreakers.

Say Raw Yonks are Hired to Work on Jaws.

Storm About to Burst on Examination Matter.

Several Los Angeles dentists are to have their licenses yanked out. Five or six practitioners of the objectionable kind will be barred from further practice in the State of California. At least, this is the purpose of the State Board of Dental Examiners, now in session here.

Summonses were sent out yesterday by Dr. Herrick, secretary of the board, to several notorious members of the profession in this city. These men must appear before the board on Monday and show cause why their licenses should not be revoked. They are accused of employing illegal practitioners. This offense against the laws is almost as serious as practicing without licenses.

Respectable dentists will welcome the news that the malpractices of unscrupulous members of the profession are to be stopped. All the dentists to be thus punished are of the "cheap" variety, men whose work is as dangerous to the public as their prices seem to be cheap.

Dr. E. G. Howard, treasurer of the board, admitted last night that the board thought there was a good case against all of the accused men. The trial and punishment of the guilty parties will remove several "dental parlors" of the cheap kind. They offer cheap rates and attract poor and ignorant persons.

By employing young men who are hardly more than first-year students, and who, under the law of the State of California, are not allowed to practice dental surgery, the accused dentists are able to do the work at low rates. The work of these raw boys often is dangerous to the patient, for this reason the strict laws regulating the profession were passed.

PROSECUTE TO A FINISH.  
"I have no doubt there are several others who have not been summoned and who ought to be punished in the same way," said Dr. Howard last night. "But we have got all those against whom there is sufficient evidence. And we hope to get the others in good time. At any rate, the example set by prosecuting these ought to have a salutary effect on the profession in Los Angeles."

"You see, the laws of the State say that any dentist who employs a man not legally qualified is punishable to the extent of having his license revoked and paying a fine of several hundred dollars. There have been several men in this city on whom we have got the evidence now and are going to prosecute to a finish. The law will be tried on Monday. Of course, they may be able to furnish evidence that they are not guilty, but we will not let them off until we are satisfied."

Dr. Baird and Dr. Herrick, the president and secretary, respectively, of the board, confirmed the report that several local dentists were to be tried for their professional existence.

"I don't know whether they have been summoned yet," said Dr. Baird. "But I know there were to have been sent out to them. I am not familiar with the evidence, or with the character of the men accused, as I am not a local man."

The action of the board will be applauded by dentists, not only in Los Angeles, but in other cities. "There are too many of those 'parlor' concerns," said a prominent dental surgeon when he heard of the prosecutions.

"They hurt the profession. They are really only the agents of the dentist, but people who don't know are apt to judge us all by the malpractices of these men. People who can't see that cheap prices can bring only cheap work have to be protected from disreputable practitioners and from themselves."

The law is laid down emphatically that no dentist can employ anyone to do the work of a dentist, although even the most unimportant work on a patient unless the employee is a duly qualified practitioner. Men of the class of the accused, although qualified themselves, employ boys who are neither qualified nor trained, thinking to get quick money.

STORMY SESSION COMING.  
Next week's sessions of the board probably will be very stormy, even excluding the trial of the suspected lawbreakers. There is a decided coolness between some of the members of the board. There is a so-called "anti-Coolness" group, and the members seem to take it very unkindly that part of Dr. Cool that he made such a howl over the alleged giving out of examination questions and answers in advance.

The five members recently appointed, who are in the majority, say that there is nothing wrong at all, that the newspapers have "whooped the whole thing up." They show a reluctance to discuss the matter. Times man called on the Dental College of the U.S.C. yesterday afternoon. While making inquiries there, one of the members of the board came in. "Oh, are you an expert reporter?"

Dr. Howard, treasurer of the board, was asked if the Governor had taken any steps.

"No," he answered. "I don't see what steps there are for him to take. There's nothing to that story. No accusations have been made. Drs. Cool and Donnelly told of certain rumors they heard."

Dr. Cool said last night that he would prefer to say nothing more about the matter.

GURLEY'S NEW WATCH.  
H. B. Gurley, acting secretary of the Chamber of Commerce, is the proud possessor of a beautiful engraved open-faced gold watch, presented to him yesterday afternoon by the fellows of the second section of the Salt Lake excursion. Gurley "guessed" that it was given to him because "everybody" got a lower berth on the trip out.

At any rate, Gurley's monogram is neatly set on the outside of the case, and on the inside are engraved these words: "Presented to H. B. Gurley by the Los Angeles Chamber of Commerce excursionists to Salt Lake, in appreciation of his thoughtfulness and efficient care—June 1905."

HER DIAMOND TOOTH THIS ACTRESS LOST.

Miss Heloise Titcomb, with only pearls in her mouth.

HELOISE TITCOMB is not on speaking terms with any of the Orpheum management now, and all because she merely told them the truth about a kind of a truth.

This same truth was the cause of the funniest internal ruction that the big theaters have witnessed in months, and for the two nights of Tuesday and Wednesday threatened to deprive the Orpheum of its headline feature for the week: Heloise Titcomb really—honestly she did—refused to play one bit more unless the horrible mystery was wholly cleared up.

The whole cause of the trouble was a diamond that "the pretty" wears as a filling in a left upper eye tooth.

Monday night, after finishing her act, La Jolie attacked a tiny bag of almonds, unshelled, cracking their soft, paper-like coverings with her teeth. The diamond's setting gave way on the first nut, and the sparkler rolled into the singer's mouth, out through her suddenly parted lips, and disappeared in the inextinguishable darkness below her dressing table.

Miss Titcomb knew that her dressing room would be undisturbed, in all probability, until morning, so after making a perfunctory search she closed and locked it—the star has her devious ways of feminine celebrities. She said nothing to anyone about her loss.

In the morning she came down early, and hunted again, in vain, for the missing jewel. Then she went away out to see Mr. Brown. Brown has been in the show business a long time, and is onto the devious ways of feminine celebrities. "I lost a diamond filling out of my tooth last night," said Mrs. Titcomb. "I hope you'll have some of the boys find it today, if possible."

Brown looked over a statement from the box-office.

"Business is good, and the newspapers are pretty crowded for space—we don't need anything of that sort, thank you just the same," the manager returned to his writing.

"But I want that diamond—it's worth \$200 at least," pursued the non-understanding Miss Titcomb.

Brown looked up pleasantly. One of the things you have to learn before you can be a manager is to be patient and pleasant. "I said, he carefully explained, 'that business is good, and we don't need to work so hard for stories—just as much obliged.'"

"But the diamond isn't worth lots of money—I wish you could have some one help me hunt!"

"Really, Miss Titcomb, I'm so busy that—"

"Why, do you think this is a press agent's story?" La Jolie was on. "I certainly do," said the manager, wearing the same ineffable and unbreakable smile.

Then she went after Bartlett. "I have stories of my own, a heap better'n that!"

The result was, that after her diamond-tooth story had been smiled out of countenance all over the theater, Miss Titcomb telegraphed a cancellation of contract to Chicago, and employed a private detective.

The private detective came over, heard the story, and went back to his office and brought up a good photograph of himself, which he proffered with a knowing leer. When the songstress was through firing him he came to half-way up the stairway of the Stowell block, clear across Spring street.

In vain Miss Titcomb exhibited the cavity that the filling had covered—unfeeling Brown said that a gold filling would bury the same opening far more effectually than any fake jewel.

The diamond didn't show up, and fair Heloise was pointed at by the other actors and the stage hands as the pitiable, Calverish ex-actor and a horrible unpleasant theatrical wonder.

Yesterday morning she announced that she would not appear unless the jewel were discovered before nightfall.

Telegrams flashed back and forth between Chicago and Los Angeles, and the local theater was in a desperate strait with its refractory planet. Miss Titcomb's maid made a last trip to the dressing room, to pack up the jewelry which she had dropped on the greasy-paint box, broke it, and out rolled the diamond. It had fallen in through a half-inch slit in the cover.

As yet the on the management was made apparent when Miss Titcomb appeared at the front of the house with the setting shining in its accustomed place.

But the actress isn't over it yet. "I wouldn't have cared half so much," she pouted yesterday, "if they hadn't all made fun of me!"

TO BRING TOGETHER IDEAS AND CAPITAL.

A MEETING of the Manufacturers' Committee of the Chamber of Commerce, held in closed session yesterday afternoon in the chamber committee rooms, started a movement which is absolutely unique, and which may become of widespread celebrity.

A new bureau is to be formed within the Chamber of Commerce, to be known as "The Bureau of Capital and Manufacturers," and its object will be the bringing together of legitimate business ideas and genuine money.

The head of the small body of men now working to bring the idea to completion is Fred L. Baker, president of the Baker Iron Works, and his efforts are enthusiastically seconded by President Koepfli, an ardent supporter of the plan.

There are more good ideas turned loose in Los Angeles than in any western city, according to the observations of worldly-wise men, who have lived here a long time. Most of these ideas are sorely put to it for the right financing, and many of them, therefore, die an early and untimely death.

In the same way, hundreds of thousands of dollars are brought out here every year by tourists and other visitors, and many of these men are anxious to invest some in land, some in building enterprises, some in promotion schemes, some in business—but as there are many bits of sucker bait floating within easy reach of the tenderfoot, much of the money goes back home again through the overcaution of its wary possessors.

It will be the purpose of the new "Bureau of Capital and Manufacturers" to bring together the ideas and the money.

A competent force of careful and observant men will sift the grains of wheat from the bushels of chaff that will of easy appear, and the cultivation of man of means will be sought in a legitimate manner.

The man who has land to sell, or a business to promote, or an invention to exploit, will have his scheme tagged and listed, and put away in the bureau's files for reference.

In the same way, the man who writes making inquiries as to investment chances, will have his letter listed and put away in the real estate, mining, or business drawer, as the case may be.

The real honest promoter will be

# THE PUBLIC SERVICE.

## SUMMARY OF THE DAY.

Petitions are in circulation in the Fourth Ward asking the Council to purchase Fiesta Park and convert it into a children's playground.

The Finance Committee yesterday declined to recommend an increase of 25 cents a day in the wages of laborers in the street department.

After having been in the Probate Court since 1886, the Allen estate at Larameda Park was yesterday ordered distributed under the terms of the will. A \$25,000 and a \$5000 damage suit against the Pacific Electric Railway Company were carried to trial together yesterday, but soon compromised.

Fatterson and Cross were held for trial yesterday for a brutal assault on an aged pair.

## AT THE CITY HALL.

### MAY PURCHASE FIESTA PARK.

#### FOURTH WARD PETITIONS FOR A CHILDREN'S PLAYGROUND.

Suggest That Location Might Be Desirable for Light for the New Public Library Building. Councilman Summerland Prefers It to Circus Tickets—Council Cautious.

Petitions are in circulation in the Fourth Ward, asking the Council to purchase Fiesta Park and convert it into a children's playground.

This so-called park, which is in reality athletic grounds, occupies the entire block on the west side of Grand avenue, between Twelfth and Fifteenth streets. The plot is 230,000 feet. It is owned by Victor Ponet, and, according to the ardent Fourth Warders, can be purchased by the city for a reasonable sum.

Director Marchetti of the library board is one of the enthusiastic proponents of the plan to purchase Fiesta Park, and convert it into a playground, and, later perhaps, into a site for a new library building.

The property owners of the Fourth Ward probably pay more taxes than those of any other ward in the city," said Mr. Marchetti yesterday, "yet they have a smaller park area than almost any other ward."

"We feel that it would only be fair for the city to spend a portion of the taxes we pay in our own backyard. The plot can be purchased just now for a reasonable price; much cheaper, according to present values in its vicinity, than the city generally secures its real estate."

"Whether we shall be permitted to place a library building in Central Park is a question that the courts must decide. If we are not permitted to locate the building there our new playground would be an available location."

President Summerland has been helping the movement along for securing the new playground ground, but he is keeping in the background until the applications come formally before the Council.

During the first term, Summerland secured Terrace Park for his ward, along with the Eleventh-street franchise. One objective point to be obtained during his present term is a municipal playground for the young America of the Fourth Ward. He thinks that it would be preferable even to circus tickets.

**LABORERS MUST WAIT.**  
**COMMITTEE MISCELLANEOUS.**  
Councilman Healy of the Eighth Ward made a strenuous but ineffective effort yesterday to secure an increase of 25 cents a day for the laborers in the street department.

Healy protested to the members of the Finance Committee that they have recommended the increase of salaries of office men who were already receiving twice the pay of the men on the street, but declined to allow a raise for the men who need it most.

Chairman Smith of the Finance Committee had been doing a little "squeezing" on his own account. He presented figures to show that this two-cent increase, if applied to the street, park and water departments, will cost the city \$50,000 a year, or will necessitate the discharge of over one hundred men now in the city's employ.

The municipal league are of the opinion that if an increase is to be allowed it should be in men and not in salaries.

"Scarcely a day passes," said Councilman Smith, in explaining his position in regard to the increase, "but some man, needy and out of work, comes to my office and asks me to get him a place in the street department at \$2 a day. If we allow this increase it will mean the employment of fewer men, as the fund for this department is limited. I believe that the proper thing is to increase the number of men instead. I am in favor of making an allowance for the next municipal year that will permit the employment of an extra hundred men on the streets; to do this we must leave the wages where they are."

Ex-Councilman Howton displayed his excessive liberality in spending when people's money by asking the committee to recommend an increase in wages for the laborers in the street department to \$5 a day.

Asked by the representative of the Municipal League how he would finance such a plan, he replied: "Oh, that is a question the members of the committee must decide. I am not a financier."

The committee finally referred Healy's recommendation for an increase back to the playgrounds in the committee desk for further consideration.

**Fined for Striking Woman.**  
S. A. King, who has been an employee of the Santa Fe freight department twenty years, was fined \$10 yesterday on a charge of having struck Mrs. A. Carrao, when she refused to admit him to her store on Bellevue avenue, in order that he might serve a notice upon her husband to vacate the property.

It appeared from the evidence that the complained-of assault consisted in King's taking Mrs. Carrao's arm in a solid grip, to prevent her interference with him, but the Carraos and another witness declared that King struck the woman on the arm, which would constitute a battery. King was not supported by any other witness.

**Police Court Items.**  
J. L. Potter, the street-car conductor who objected to a passenger throwing peanut shells on the floor of his car, and shoved a gun under the passenger's nose when he resented being thrown off the car, was arraigned for exhibiting a deadly weapon. His trial was set for July 6.

Henry Galbraith was sentenced to pay a fine of \$100 for practicing medicine without a permit from the State Board of Examiners.

### THE "SPHINX" WILL STAND.

#### OLD ESTATE OF WILLIAM ALLEN ORDERED DISTRIBUTED.

In the Courts for Nineteen Years. While Minors Have Completed Their Education Abroad—Wife's Complaint of Ragged Stockings Figures in Divorce Suit Testimony.

The old Allen estate—of which the valuable "Sphinx" rancho is the principal asset—is about to be distributed to the heirs under the will. Judge York yesterday settled the final account and made the required order.

William Allen died July 21, 1886, since when the estate has been in the courts, owing to the fact that at that time two of the children, minors, were attending school in England.

Allen was an Englishman by birth and a man of some little fortune. When he came to Southern California he brought most of the money realized from his English estate. He bought a large tract at Larameda Park, and after planting orchards and vineyards and building a handsome home, christened this rural home "The Sphinx."

Within this rancho are included 500 acres, with 100 acres of mountain land adjoining in which he only held an interest.

At the time of Allen's decease the real property was valued at \$55,000 and the personal property at \$17,000. The will offered for probate was dated July 23, 1885, and under it terms "The Sphinx" was not to be sold during the lifetime of the widow, but was to continue to be her home, and the income applied to its maintenance. At her decease, however, this property was to be sold and the proceeds divided among the nine children.

According to the account filed by Maj. H. T. Lee, attorney for the estate, the distributable property now on hand amounts to \$150,000, after the current expenses of maintaining the family, meeting the educational expenses of the minors, and keeping the estate in proper shape have been paid. But really this amount represents only "The Sphinx" rancho, and as no allotment of the property has been made in recent years does not represent the actual value of the property belonging to the Allen children.

Property in the city has advanced steadily for some years, and the electric road will probably soon run through the ranch lands. In any event there is a high probability of disposition of this property.

**HOLES IN HER HOSE.**  
**WHY DEAN GOT DIVORCE.**  
"You are a nasty, little, insignificant, little bum," and Mrs. Yeobell repeated her adjectives to make her contempt the stronger.

Harry E. Dean, target for these remarks, occupies a responsible position with the Harbort Music Company, and has been leading such an arduous life for the last year or two that he from necessity was compelled either to surrender his position or his wife. He accepted the latter alternative and told his story to Judge Wilbur yesterday.

In 1896, Mrs. Dean was facing the public from behind the footlights as a light opera company. She had two children by a former husband, when she married Dean. In the first year of marriage there were eight changes of residence, which the husband thought too many to be pleasant, all the more so, as Mrs. Dean insisted that the home place at No. 1224 West Thirty-ninth street be left vacant, so that they could occupy it whenever they so desired.

Dean obtained work for a stepson in the business house with which he himself was employed, and a stepdaughter was married last year, but these circumstances did not add to Mrs. Dean's contentment.

Working herself into a frenzy of passion, according to the plaintiff, she rushed into the bedroom and returned with a loaded revolver.

"I'll blow you as full of holes as a sieve," she said, but there was no struggle and the pistol was wrested from her grasp.

"Well, then I'll stick a knife into you when you're asleep," she threatened in her vexation, adding, "I'll wiggle it about."

This more or less constant harassment upset the husband to such an extent that he could not do justice to his employers, and when his wife, as one occasion, exposed her stockings full of holes to visitors and claimed that her husband was so penurious that he wouldn't maintain her as her position in life demanded, he felt shame and humiliation.

Occasionally when Mrs. Dean was half-way repentant she said that she would consent to a divorce, but the plaintiff husband corroborated the statements previously made regarding the queer actions of the wife, and the decree was granted by the court.

**SUITS QUASHED.**  
**FROM WHITTIER COLLISION.**  
The suit of R. F. Hulse against the Pacific Electric Railway Company, to recover \$25,000 as damages, and the kindred suit of P. M. Black, for \$5000 damages, both cases arising out of the same accident that occurred on the Whittier line June 13 of last year, went to trial yesterday before Judge Monroe and a jury.

The last minute Attorney Walter Traak, representing the railway, and Attorney E. A. Meserve, representing both complainants, got together, and a compromise was effected. Mr. Meserve stated that his clients were perfectly satisfied, but refused to state the exact sum upon which they agreed.

A number of claims arose out of this collision. Black and Hulse were sitting together, and were both seriously injured, while a woman across the aisle from them was killed.

**CRUEL AT HOME.**  
**QUITE DEMORALIZED ABROAD.**  
Mrs. Estelle G. Coats thought traveling abroad would perhaps wear her husband from certain unpleasant manners, and she consented to accompany him with the Stanford theatrical combination to Australia. When the company opened at Melbourne, Coats became worse in his behavior, and named another bad habit that he had not possessed—so far as his wife knew—at home.

The couple were married at Jerome, Ariz., in October, 1899. Coats was a stage driver, but he switched from one thing to another until this city he became stage driver. Mrs. Coats yesterday told Judge Bordwell that her husband had been very cruel to her. In filing her suit for divorce she gave as grounds desertion, cruelty and adultery, and won practically on all three.

**COURTHOUSE NOTES.**  
**BREVITIES MISCELLANEOUS.**  
DORMAN IN LUCK. N. H. Dorman, a gardener, yesterday confessed before Judge Smith to having stolen

a watch and chain belonging to R. M. Wiley, but Dist. Atty. Fredericks inquired in his behalf. Dorman has been an unexceptional character and was sentenced to only four months in the County Jail, being permitted to plead to petty instead of grand larceny.

**SENT TO PATTON.** Cesar Perti was yesterday ordered to the State Hospital at Patton by Judge York. Perti is an Italian, and has been working in the Santa Monica Mountains. He said the intense heat had affected his head and that for a time he saw visions and heard voices.

**TRIED TO STEAL.** Adior Lagus yesterday pleaded guilty to attempted burglary two weeks ago, when he tried to enter the room of Clara Leighton, No. 846 North Alameda street. He was caught red-handed and Judge Smith will pass sentence when the man's record is dug up and presented to the court.

**SENILE DEMENTIA.** W. H. Crew, an aged man who came to this city from New Orleans a few months ago, was ordered committed to Patton by Judge York yesterday. Crew is 75 years old and is unable to care for himself.

**ALLOWED A FEE.** Attorney J. W. Kemp won a verdict in his suit against the City of Los Angeles for attorney's fees. The jury cut down the claim, but allowed Kemp \$1250.

**GARLAND WINS.** Mrs. Minnie Unger has lost her \$10,000 damage suit, against William Garland, the Arizona mining man. In rendering judgment in the case Judge Smith said that Garland had shown negligence in driving at the time the accident, in which she was injured, occurred.

**WATER FRONT LOTS.** La Grande Beach Land Company has incorporated with a capital stock of \$400,000, of which \$25 has been subscribed. The directors are: J. B. Woodruff, A. W. Allen and E. A. Larsen, all of this city.

**PROTECT BANK CHECKS.** The Kateras Check Protector Company has incorporated with a capital stock of \$100,000, of which \$3225 has been subscribed. The directors are: Buchanan, W. S. Windham, M. D. Snowball, H. E. Montgomery, N. Hodge, J. Breiner and G. A. Nelson, all of Pasadena.

**RAISE CATTLE.** The Baker Land and Cattle Company has incorporated with a capital stock of \$50,000, of which \$1030 has been subscribed. The directors are: Mike Baker, H. A. Baker, R. Whitcomb, Lee A. McConnell and T. P. McConnell, all of this city.

**MUST ANSWER FOR BRUTALITY.**

#### ASSAILANTS OF TWO OLD PEOPLE ARE ARRAIGNED.

One Whippersnapper When Jail Stares Him in Face—Trouble With Obstreperous Tenants Gets Landlord Into Police Court—Case of the Peanut Muncher.

William Patterson was arraigned before Justice Rose yesterday on two charges of battery, preferred by aged John J. Moore and Mrs. H. M. Coe, also a very aged person. Mrs. Coe said that the defendant had charged against John F. Cross.

On last Tuesday Patterson took Cross to see a piece of property in the Arroyo Seco, where it is alleged one or both of them committed a brutal assault on the two old people, who lay claim to the property. Moore's hip was dislocated and Mrs. Coe had an arm broken. Cross and Patterson bore no marks.

Cross whimpered when told he must put up bail or go to jail, and appealed to the sympathy of the court through his little boy, whom he took with him to the Police Station. Deputy Patterson volunteered bail for Cross as well as for himself.

The trial of the two men were set for Monday next, when it is thought one or both complainants may be able to appear against them.

### Club Women Rally 'Round Deposed Librarian.

#### Talk of Charges Against Three Members.

#### Miss Jones Holds the Keys, Says She'll Stay.

Los Angeles woman clubmen yesterday rallied 'round Miss Mary L. Jones, the deposed city librarian. The club women take offense on the grounds that her dismissal was not due to any shortcomings on her part, but that the board wanted a man in charge.

Their first onslaught was on the Mayor and City Attorney. It was rumored that they captured both. Friends of the beleaguered librarian expressed satisfaction last night and claimed they are in a position not only to raise the siege, but to lift the scalps of three members of the attacking party.

The duty assigned to a portion of the relief expedition is to prefer charges against the Mayor against Directors Trueworthy, Wright and Dockweiler, and ask for their removal from the library board.

Miss Jones last night said that she will return to her place in the library this morning and that she will remain until advised by the City Attorney that she has been legally dismissed.

"I do not desire to make myself obnoxious," said she, "but my friends all insist that the action of the board was illegal; Director Rodman, who is an attorney, tells me it is illegal, and I feel that I am justified in remaining until the City Attorney gives a decision."

**INDEPENDENT OF MAYOR.**  
Developments of yesterday brought to light for the first time that the library board has been working for the last six months entirely independent of the Mayor.

Four members of the board are appointees of former Mayor Snyder. Mayor McAtee has held himself aloof from them to the extent that he has not set foot in the library during the six months that he has occupied the municipal chair.

Some of Miss Jones's friends asserted that the act of the library board was a political move engineered by Democrat politicians; that Miss Jones's removal was the price of peace between the Snyder and Dockweiler factions of local Democrats.

They urge that the Mayor should block this little game by the removal from the board of all parties concerned.

This has given rise to the question of how far the Mayor and the Council can go in the removal of commission-ers. Section 8 of the city charter provides that: "All appointed officers shall hold office until removed by the Mayor, or until their term expires."

Members of the Library Board admit that they took heroic action in removing the librarian without the presentation of formal charges and hearing testimony in relation thereto at a formal hearing, but they contend that under the law they are not required to do so, as the charter does not specifically require such a procedure.

Such being the case they say they did not consider it necessary to go through the unpleasant features of a trial, which might result in detriment to the public service, and cause an upheaval in the library, which would serve no good purpose.

They contend that their act of removal was not judicial in its character, but was purely the exercise of administrative or executive functions.

In justification of this view they refer to the recent case of Carter versus the city of San Diego referred to in volume 141 of the California reports. But the wording of the Carter provision for the removal in this case

is widely different from that of the Los Angeles city charter. The language of the San Diego charter is so peculiar that the Supreme Court judges in their decision say that it "strongly implies that the removal shall be summary without any antecedent hearing."

Section 8 of the city charter provides simply that the Board of Library Directors shall have the power "to appoint a librarian and necessary assistant, and such other employees as may be necessary, and, for good cause, to remove them."

Miss Jones's attorneys assert that there is a wide difference between "alleged cause," such as was presented by the Library Board on Wednesday night, and "good cause."

**STILL HOLDS THE PORT.**  
Miss Jones still retains possession of the keys to the librarian's office and to the safe. Willoughby Rodman, her champion on the board, insists that the action of his fellow members of the board was illegal.

It developed yesterday that City Attorney Mathews was asked by the majority of the board to attend to the members of their proposed action before the librarian was dismissed, and that he declined to do so.

"Resident Trustworthy says that the charges on which Miss Jones was dismissed can easily be proved; that testimony was not taken simply because the members of the board desired to shield Miss Jones—did not care to pose in the light of persecuting a woman—but that the conditions in the library were such that no satisfactory progress could be made under the present management."

Miss Jones occupied her old position yesterday in the librarian's office, the same as though nothing had happened; and the assistants, with the exception of Miss Miller, referred all matters to her just as though the board had not spoken the night before. During the greater portion of the morning her office bore the appearance of a reception room, many were her callers.

**A COINCIDENCE.**  
By a peculiar coincidence at the meeting of the board, when the charges were made and the librarian was dismissed, the annual report of the Library Board appeared publicly for the first time.

Here is what that report has to say about the act of the board: "The directors also wish to express their appreciation of the capable and efficient manner in which the librarian and her assistants and their subordinates have discharged their respective duties. Their work has been well done and the directors extend to them their congratulations and thanks."

This is signed by the entire board.

## MUSIC AND MUSICIANS.

Concert.

The closing concert of the Women's

Club, given at Simpson Auditorium

last evening, presented a pro-

gramme of unusually varied numbers.

As evidenced at the last concert, the

club shows very conclusive signs of im-

provement, and under Poulton's artistic

and spirited direction will no doubt

continue to thrive.

A large audience greeted the singers

last evening, and the interpretation on

the part of the chorus was uniformly

balanced in tone-divisions and genuine-

ly musical in conception. One can't

feel what a magnificent chorus

the Lyric Club combined with the Elise

club would make, and how they would

normally distance every other chorus

in Los Angeles.

As to the programme, it opened with

the majestic entrance of the Gods to

Valhalla, from "Das Rheingold." For

another number there was a brilliant

composition of Frederick Schumann,

which evidences the creative

talents of that productive writer in

new light. The new piece is "The

house of the Fays," about a light

and delicate subject Stevenson has

written a maze of harmonic poetry no

complex, indeed, that one feared for

the reading by the lips of these amateur

singers—but the fear was groundless,

for with the skillful guidance of their

director they stumbled not.

Another magnificent selection was

Schubert's "God in Nature," as the

subject is, a majestic study of solemn

import. The evening concluded with

the "Tannhauser" Pilgrims' chorus—in

which the dramatic violin motive could

be heard at all, as it emanated

from the erratic voice box of the old

Wiener instrument.

A pretty little choral number, set to

words by Abbie Norton Jamison.

If the traffic manager would see the representative of a well-known company.

"What's yer name?" interrogated the boy, pausing a moment in the mastication of a mouthful of gum.

"The name is immaterial," began the visitor, when the boy bounded away like a rubber ball, and shrieked into the private office of the traffic manager, "Mr. Immaterial ter see yer, sir."

LOST HIS JUDGMENT.  
Max Zukerman won a \$75 judgment from the Pacific Electric Railway Company in the Justice Court, and yesterday, when the case was heard before Judge Wilbur on appeal, judgment was given in favor of the defendant. Zukerman was driving a load of hay on Main street, and contended that he was compelled to drive on the track by reason of obstruction on the side of the street. His cart was jolted by a street car and he was thrown to the ground. It appeared to the Appellate Court that he had not shown the caution necessary in the premises.

PERSONAL.  
Peter F. Kiefer of No. 240 North Street left for a ten days' stay in Vienna on business.

Judge Muhroe entertained the Judges of the Superior Court at dinner at the Van Nuys Hotel last night.

### EVENTS IN LOCAL SOCIETY.

ABOUT sixty members of the young crowd were entertained last evening with a very delightful little dance by Mrs. L. N. Van Nuy at West sixth street, in compliment to her daughter, Miss Kate Van Nuy, who graduated this year from the Marlborough School. Most of the girls entertained were members of Miss Van Nuy's class and young men who have come down from northern schools on summer vacations.

Dancing was enjoyed on the lower floor, and here pink roses and dotted white were utilized in graceful design throughout the rooms. Above stairs, where supper was served in the banquet room, the tables were adorned with baskets filled with pink and white sweet peas and maidenhair ferns and tied with lacy bows of pink and green tulle.

There, with of spring lilies over fair maids and matrons, moon and butterflies, and dithers while sweet ferns were being lightly and pictures, in the party given by Mrs. Will Maier and Miss at the home of the 4137 South Grand avenue to Miss Leontine last month is to become a Miss Glanville of San

Mrs. H. J. Inwood and two children of Michigan who have been spending the past eight months in Monrovia and Los Angeles started for their eastern home Thursday. They were accompanied as far as Oden by Mrs. Inwood's sister, Miss E. Ann Scott.

Miss Emma L. Barnes and Thomas Morehouse of this city were married on Tuesday, June 20, at Riverside, with Rev. Edward F. Goff officiating.

Mrs. M. A. Bostwick of West Adams street left last evening for New York, from whence she will sail on July 5 for Europe with friends, expecting to remain about six months.

A wedding which was solemnized on Wednesday evening was that of Miss Rose Lehman and Elson Beatus, which took place at the home of the bride, at No. 1701 New England street. The couple left soon after the ceremony for Lake Tahoe, and after a short visit will make their home in Los Angeles.

Underbrook's Statements Do Not All Agree.

Burgess Do Not Find Marks of Alleged Bullet.

Supposed Kuklux Victim Goes to Hospital.

Special Correspondence of THE TIMES.

SANTA MONICA, June 22.—Walter Underbrook, the alleged victim of the Kuklux, was in such a nervous condition this morning that the ambulance called and he was returned to the Santa Monica Home Hospital. The strain which he has been during the week has brought a recurrence of his nervous condition.

The Soldiers' Home he is remembered by the war veterans who adhere to the spiritualistic faith as the photographer who made for them the pictures of their friends and relatives. By them he is regarded among the fakers, and their expressed without regard to the fact that the man who would make an old soldier into the belief that he was buying a spirit picture would stop to take of greater magnitude.

When she exchanged their good wishes with him for fraudulent pictures are pronounced in their belief that Underbrook, bound, gagged, painted and set himself. They hint at a possible connection.

Barretto says it would have been a physical impossibility for the man to have done it himself. Dr. Underbrook, who was called in when it was thought medical aid was needed, was not able to do this belief.

It is a fact that the fellow was the victim of his own disease, a mental condition in the first instance. It is agreed that he was also the author of the anonymous letters. He was an erratic and still nursing a major's insanity, sympathy or the sympathy of the public was not to be expected. He might have set fire to his own house. Dr. L. H. Case, who treated him immediately following the shooting, but public opinion is pressing to connect Underbrook as his alleged assassin.

What disposition public opinion makes of the three men who are said to have been running from the burning building when the man was fired is not vacillated. The man was not young, that is, he was his cousin. Now he says he is no relationship.

## CHANSOR SAYS IT ISN'T TRUE.

ASSOCIATED HAS NOT BOUGHT COALINGA PIPE LINE.

It May Do So, but the Deal Has Not Been Consummated Yet—Santa Maria Field May Be Extended About Fifty Miles—New Well in Whittier District.

J. A. Chanslor, president of the Associated Oil Company, in an interview at Bakersfield a few days since, denied the report that the Associated has purchased the Coalco-Monterey pipe line. By the terms of his remarks, as quoted, however, he seems to intimate that there is a likelihood of this coming to pass. He said, in answer to a question on this point:

"We are looking out all the time for anything that will do the Associated good, and if that pipe line would be a good thing for us, of course, we would like to have it, provided we could get it at the right price. But at the present time there has been no deal concluded for the purchase of the pipe line by the Associated."

According to all reports the deal is not to be formally closed until July 1, and this may possibly be what Mr. Chanslor means in his denial.

In the interview, Mr. Chanslor also confirmed the report that the Associated is troubled with a lack of cars to handle its business. This shortage he said applied only to oil for the general market, and he was of the opinion that the railroad was using the cars for its oil in order to get a supply ahead in its tanks. Mr. Chanslor also took occasion to deny the charges of conspiracy between the Standard, Associated and Espee to control the market.

COAST OPERATIONS.

Much interest among oil men is centered on the probable discovery of oil in paying quantities on the property of the Todos Santos company at Santa Maria. The well is now in the best of condition, and the bringing in of a good well will mean the extension of the field nearly five miles to the south.

From Santa Maria the interest extends to Arroyo Grande, where an effort is being made to get oil by Capt. J. A. McClurg of Fresno, who is drilling for two companies. Near San Luis Obispo W. E. Yule is putting down a well, and if this proves successful it will mean the establishment of a new oil field, or if the intervening territory proves to be oil-bearing it will extend the present oil belt about fifty miles.

While the Santa Barbara county districts are considered the coming fields of the State at present and are already almost on the boom, it is not likely that the chance for scores of companies with stock open to the public being organized, as was the case five years ago, are not so great, although the unknown extent of the oil belt encourages wild-cat enterprises to a great extent.

The question how much of the Santa Maria oil is suitable for fuel in its crude state is one that is of the greatest importance to producers and consumers alike. If all the Kern River, Whittier or the heavier Fullerton product, the price of fuel might be considered as certain to drop to almost a nominal figure. It is generally considered that by far the greater part is a light grade, excellent for refining, but not adapted for fuel. There is some, however, that is so used and is satisfactory. It is said, while more is of a kind that can be burned in some lines of business, although there are some who question its fitness as compared with the other grades.

It is perfectly safe to say, however,

that for the present at least the new fields are not likely to be able to put much crude on the market as fuel as compared with the whole output. A process at the refinery, taking off the lighter parts and producing a low-grade distillate, will enable it to be used for many lines in competition with crude, if the cost is not too great. There are other lines, however, in which the crude has always and is likely to always be the essential fuel. At present the coast fields do not seem to be regarded very seriously by local fuel men.

WHITTIER DEVELOPMENT.

The Central Oil Company brought in another well at Whittier, making forty in all. The well is believed to be good for 200 barrels a day.

The Central paid its regular quarterly dividend of 2 per cent. last April, and another will be paid in July.

GOOD PRICE IN ARIZONA.

An excellent sign of better times in the local situation is seen in the sale a few days ago of several thousand barrels by an independent company for shipment to Arizona. The price was 22 cents f.o.b. Los Angeles, which is better than what has been prevailing in the field.

The payment of a regular semi-annual dividend of 2 and an extra of 2 cents by the Fullerton Oil Company, which amounts to \$27,000, is regarded as further evidence that the oil industry is not falling behind, in spite of the low prices.

GAY TIME FOR GRAVES.

But Norwalk Ranchman Wakes on Morning After to Find "Friends" and Money Gone.

J. B. Graves, a Norwalk ranchman, came to town Wednesday night to bank in the effluent rays of the Broadway lights for a few brief, delicious moments. His bank cost him just \$70.

The sights of the city looked so good to the man from Norwalk that he couldn't help from mingling with the gay and careless throngs and finally he found two convivial companions who seemed to have not a care in the world. They proved to be good money spenders and the places with the swinging doors proved lodestones toward which Graves and his new-found friends frequently gravitated.

When Graves finally decided to go to be, he would not be separated from his companions and all three bunked together in the downy couch.

Yesterday morning Graves found his trousers in the toilet room, and \$70 and his quondam friends missing. He to his troubles to the police, but he could give no description of his companions.
